SUMMARY

Full-Stack Developer, Production Level Work Experience in **React.js**, **Node.js**, **Express.js**, **MongoDB**, and **PostgreSQL** for scalable Web Application and REST APIs. Currently developing a microservices-based LMS, hands-on experience with microservices architecture, authentication, databases, real-time systems, performance optimization.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3
Frontend: React.js, Next.js, Context API, Bootstrap, PWA, Responsive Design
Backend: Node.js, Express.js, REST APIs, Socket.io
Databases: MongoDB, PostgreSQL, MySQL, Supabase
Tools: Git, GitHub, Postman, Jira, VS Code, Agile/Scrum

EXPERIENCE

Software Developer - Opcode Academy
Dec 2025 - Present
Lucknow, Uttar Pradesh

- Promoted from Junior Software Developer to Software Developer within 6 months for contributions to the architecture and development of the LMS platform.
- Architected and built 2 Node.js/Express.js microservices, designed 15+ PostgreSQL tables and 5+ MongoDB collections for course, user, enrollment and application workflows.
- Built and shipped 50+ LMS Features with Admin, Student, Instructor roles, supporting 100+ users, 6+ Instructors, and 40+ courses across technology and professional domains.
- Implemented JWT based authentication, role-based access control and Supabase Row Level Security (RLS) for application data; load tested with 1000+ simulated users.
- Organized and led the overall LMS architecture and technical design, also implemented enhancements to the front end of the LMS, SEO and marketing in an Agile/Scrum team, raising Lighthouse scores from 50-60% to 95%+ on LMS pages.

Web Developer Intern - SinQlarity
Aug 2023 - Nov 2024
Remote

- Gained hands-on experience in real-world software development through mentorship from industry professionals and project-based learning using React.js, Node.js, Express.js, and MongoDB.
- Built multiple full-stack projects, including Quizzy, a quiz management application with JWT authentication, OTP email verification, quiz creation, and performance reporting.
- Learned and contributed while working in an Agile team environment, with experience in Git workflows, code reviews, API testing, debugging, and collaborative development.

PROJECTS

Opcode LMS - Learning Management System – *Live-Website*
Present
React.js, Node.js, Express.js, MongoDB, PostgreSQL, Supabase, JWT

- A comprehensive learning platform that brings together students, teachers and administrators in one place to manage and provide online learning.
- Supports course discovery and enrollment, structured learning content, live classes, quizzes, attendance, progress tracking, certificates, and instructor–student interaction.
- Developed as a role-based platform with specific workflows and dashboards for Admins, Instructors and Students.

Shahi Awadh Kitchen - QR Ordering – *Live-Demo* | *GitHub*
2026
Next.js 14, Prisma, SQLite, Tailwind CSS

- Built a QR-based digital ordering system that lets guests browse the menu, place orders, track order status (Preparing, Ready, Served), and request their bill directly from their table.
- Table-wise order management and records are digitized, eliminating order mismatches, missed orders, and manual coordination between customers, servers and kitchen.
- Owner-reported a 20% increase in restaurant sales within 2 months, cutting manual work with its real-time order tracking.

EDUCATION

Bachelor of Computer Applications (BCA), LBS PG College
2025
Gonda, Uttar Pradesh

Coursework: Data Structures, DBMS, Web Technologies, Software Engineering, Computer Networks, OOP
